Q9. Chart Selection Justification Explain why different charts were used for different business questions in this analysis.

Answer

Bar/column chart = comparing the quantity.

Line charts = line charts clearly show trends, fluctuations, seasonality over the time.

Pie/donut charts = proportions of whole (market share).

Scatter plot = relationship or correlation between two numerical variables.

Heat maps = visualized intensity or density across geographic regions or complex matrices.

Q10. Business Insight Summary Summarize two key insights from your dashboard and explain how they can help management make better decisions.

Answer

Regional sales performance =

The west region is the top performing market, contributing largest share of total sales at 2,87,787. In the contrast east is the lowest sales in the performing market total sales 2,24,025.

Seasonal sales trends =

Line graph indicates significant monthly fluctuations in sales throughout the year.

Peak performance: sales reached their highest point in January, sharp spike in 1,63,217.

Low point: sales reached their lowest point in November, sharp spike in 62,142 .
